

# Women Caring for the Land: Conservation Learning Circles

*Do you own farmland, but don't farm?*

**Learn ways to care for your land to protect your investment!**

## Connect with other women landowners to:

- Learn about soil health and soil conservation practices.
- Discover local resources and government programs that can help fund environmentally friendly land management.
- See how to work with your farmer/management company on conservation practices.
- Create a long-term management strategy for your land.

## Free Workshops:
