

SANDY BROOK

FARM

Sandy Brook Farm is a perennial-based farm located in the Suamico area north of Green Bay, WI. We have a herd of beef, a flock of sheep, as well as hogs and poultry alongside cold-hardy fruit. The farm's growth and expansion is allowing us to hire one additional full-time position beginning this 2019 season.

We are looking for a ***farm generalist/manager*** to assist in the day-to-day operations of the farm. Duties and responsibilities would include:

- Tending to livestock (beef, pigs, lamb, poultry)
- Infrastructure maintenance
- Planting of both annual & perennial crops and plants
- Perennial berry planting, maintenance, and harvesting
- Tree planting and pruning
- Mulching

Future additional tasks may include:

- Tapping a sugar bush (Maple syrup production)
- Woodlot management
- Forest farming (mushrooms, edibles, etc.)

Experience in a greenhouse, working with compost, livestock integration and orchards are a plus, but not necessary...though this person needs to be willing to learn.

This position is physically demanding. It will require the ability to: lift 50-60 lbs., tend to animals, communicate with others, tolerate inclement weather, and work weekends on a rotational basis.

This position is seasonally weighted with hours, but we will carry these individuals through the winter with work.

Compensation will be determined by the experience of the applicant.

Contact Jason @ (920) 503-0063 for instructions on how to apply for this opening.
