

**Amery, WI**

**FARM MANAGER AT HUNGRY TURTLE FARM**

**Resilient Northern Habitats**

**Job Description:** Farm manager

Hourly & Seasonal: \$13-18 depending on experience and ability to bring projects to fruition.

Benefits: PTO, CSA vegetable and cheese box share

Full time to October 1.

Possibility of part-time work after Oct 1 is dependent on research, training, construction and vacation coverage needs and skills.

**Duties & Responsibilities:**

This role involves working with a team. Team meets weekly to determine priorities, address challenges and schedule multiple team members for certain large jobs. Self-starter with the ability to assess the situation and needs. Every day is varied. Must be totally reliable!

A sampling of tasks you may perform are as follows...

**Animals** (large & small) - feed, fence/coop moving for rotational grazing, vet checks, cleaning, watering

**Seed Project & Garden** - weeding, planting, harvesting, bed creation, clearing, prepping, mulching, seed starting, watering, pest control

**Farm** - greenhouse work, high-tunnel building, weeding, irrigation set-up & repair, pick rocks, harvest, check fields

**Grounds** - mowing, trail maintenance, brush hog, trimming under fences

**Operating Tractors and implements-** bucket, forks, brush hog, hay making, seeding

**Facilities:** building cow shelter, chicken tractors, maintenance and repair of buildings. Event work such as parking cars, giving tours, serving food, moving chairs/tables, setting up tents

**Education & Experience:**

Experience and/or education in landscaping, permaculture, gardening, animal care, farming, construction or related fields are all a plus.

**Work Requirements:**

Ability to work in different types of weather

Ability to lift 50 lbs

Ability to communicate clearly and listen to instructions

Ability to be self-reliant and comfortable working independently

Ability to trouble shoot and problem solve independently

Ability to learn and adapt to our best practices, & maintain organization

Ability to be aware of your work surroundings

Follow safety protocol and wear appropriate gear/shoes

Friendly, helpful attitude is a must

Some Weekend and evening work. Ability to cover for team members responsibilities when out of town.

**About Resilient Northern Habitats and Hungry Turtle Farm:**

Hungry Turtle Farm is a project of Resilient Northern Habitats, focusing on soil building, seed saving initiative, and heritage breeds. Resilient Northern Habitats seeks innovative systems thinking, business strategies and collaborative partnerships to stimulate small scale restorative farming, create local food sheds, and revitalize rural communities.

**Application Instructions:**
