Join the Featherstone Farm Team in 2021!
Currently Seeking a Crop Management Team Member

- **Grow delicious organic produce!** We strive to grow high quality food efficiently.
- **Take your vegetable growing experience to the next level!** Many opportunities exist for employees to grow their skills and take on new responsibilities.
- **Join a vibrant, fun community!** Located in the beautiful Driftless region, right next to the 40+ mile Root River bike trail. Swimming holes and state parks nearby.

**Summary:** We are looking for an experienced individual who is interested in the potential to become a long term and key member of our crop management team. This person would spend the 2021 season working in field production to get to know our systems, our team, and learning the skills to move forward with more management and leadership responsibilities in subsequent seasons.

**Responsibilities:** Participation in all aspects of crop production work including but not limited to: greenhouse and hoophouse, irrigation installation and application, planting, scouting for pests and disease, field prep and cultivation, fertility monitoring and application, data collection, and crop planning. Horticulture team members are also occasionally assigned other responsibilities or projects like wash and pack, harvest, carpentry projects, etc. They will be involved in all aspects of Field Production from hand labor and equipment operation to data collection and analysis.

**Qualifications:** We are seeking positive, engaged, self-motivated team players with a passion for problem solving and completing high-quality work. Qualified applicants will ideally have 2+ full seasons experience with field production of organic vegetables. Demonstrated ability to operate farm equipment (tillage, seeding, cultivating and harvesting equipment, among others) is desired but not required. Spanish language skills and proficiency with MS Excel are highly sought but not required. The ideal candidate will also have strong communication and interpersonal skills as well as strong organizational skills.

Positions are based at our farm in beautiful Rushford, MN. During the growing season (April-October) employees are expected to work 40 to 50 hours a week in all weather conditions; hours and days may vary. Winter work (Nov-March) in our warehouse and with crop planning likely 30-40 hours per week with opportunities for more time off if desired.
**Benefits:** Hourly wage (minimum $14.50) based on experience. Paid Time Off after 6 months, access to land for individual farm projects, and access to free organic produce. Housing options may be available with reasonable rent payment.

**Contact:** Applicants must submit a Featherstone Farm Application for Employment and cover letter. Applications can be found at http://featherstonefarm.com/employment-opportunities.html, Please email application documents to todd@featherstonefarm.com or send to Featherstone Farm 43090 City Park Road, Rushford, MN 55971.
