The Midwest Organic and Sustainable Education Service (MOSES) is a non-profit educational outreach organization. MOSES organizes the Organic Farming Conference, held annually in La Crosse, WI, and publishes the bi-monthly Organic Broadcaster newspaper, a Guidebook to Organic Certification, Organic Fact Sheets and Help Wanted: Organic Farmers information packets. MOSES also sells books, provides educational trainings and answers farmers' questions.

For recent updates of Directory listings and more organic farming information please visit: www.mosesorganic.org
Please note:

This is the final print version of the Upper Midwest Organic Resource Directory. For up-to-date listings of organic-related organizations, agencies, cooperatives, buyers, suppliers, processors, etc., please see the MOSES website: www.mosesorganic.org.
Upper Midwest Organic Resource Directory

10th Edition

Produced and Funded by:

Midwest Organic and Sustainable Education Service (MOSES)
PO Box 339
Spring Valley, WI 54767
715-778-5775
fax: 715-778-5773
info@mosesorganic.org
www.mosesorganic.org

Additional funding from:

www.rma.usda.org

This is NOT a directory of certified organic farms. Listings of organic farms are available from other sources. Websites such as www.localharvest.org and foodroutes.org can help you find farms in your area. Certifying agencies are good sources of certified organic farms and processors, as is your local Department of Agriculture (contacts are listed inside this directory).

This Directory is available as a searchable database on the MOSES website, which is updated regularly. Visit www.mosesorganic.org for any updates.

Copyright July 2013. All Rights Reserved
Introduction

The Directory is a publication of the Midwest Organic & Sustainable Education Service (MOSES), a farmer-run non-profit organization promoting organic and sustainable agriculture.

The MOSES key initiatives include:
• Trainings and field days
• Farmer-to-farmer mentoring program
• Resource development, including fact sheets, guidelines for organic certification and the Upper Midwest Organic Resource Directory
• Public relations, promotion and media outreach, including Facebook and Twitter
• Farm shows and other events
• Education and curriculums for collegiate programs
• Toll-free organic farmer helpline

Every effort was made to ensure the accuracy of the information in this directory; however it is inevitable that some information may be outdated, incorrect or missing. To correct or add new information, please contact us.

To donate, receive additional copies or to place a bulk order, contact:

Midwest Organic & Sustainable Education Service (MOSES)
P.O. Box 339, Spring Valley, WI 54767
(715)778-5775
www.mosesorganic.org

Your support is essential to ensure all of these services and programs can continue to thrive and grow! By supporting MOSES, you will have a direct impact in helping organic farmers succeed.

When organic farmers succeed, rural economies thrive, and the environment remains healthy and diverse!
Contact us or visit the MOSES website to make a donation!

View the directory online at www.mosesorganic.org.

What is Organic Agriculture?

1. What is Organic Agriculture?

Using tools that mimic nature, organic farmers enhance the health of their environment, which results in pure and nutritious food. Organic agriculture uses an array of cultural and biological practices to build soil fertility, manage weeds and pests, enhance recycling of nutrients and increase biodiversity. Organic farmers continuously improve their farm system by building and balancing their soils that then produce vibrant crops and robust livestock. Organic certification verifies growers’ and processors’ compliance with USDA regulations, with annual inspection and review.

Organic Production

Organic production systems emphasize proactive, knowledge-based management, on-farm resources and recognition of our interdependency with nature. Diverse crop rotations interrupt pest, disease and weed problems, reducing the need for off-farm inputs. Using the wisdom from centuries of agriculture along with the latest science and understanding of natural systems results in a sustainable method of food and fiber production to feed our world for generations to come.

Organic production systems are designed to:

- maximize soil biological activity and minimize soil erosion;
- provide livestock with healthy feeds and living conditions;
- minimize the use of nonrenewable resources;
- minimize agricultural pollution; and
- respond to site-specific challenges by using natural methods and materials.

Organic agriculture prohibits the use of genetically-modified organisms (GMOs) and non-approved synthetic herbicides, pesticides and fertilizers. Growth hormones, antibiotics and slaughter by-products are not allowed in organic livestock production. Federal organic rules prohibit the use of sewage sludge (biosolids) and irradiation.
What is Organic Agriculture?

Weed and pest management on an organic farm is accomplished as part of a holistic system. Biologically active soils and continuous replenishment of organic matter through green manures produce vigorous crops that are more resilient in times of strong insect pressure as well as drought or excessive rain. A diverse ecosystem where beneficial insects and birds find food and habitat also contributes to lessening insect damage to crops. An organic farmer could also use a natural biological or botanical pesticide or as a last resort, choose from a very short list of approved synthetic pesticides.

Organic farmers use on-farm resources whenever possible. Composts, livestock manures and incorporated legume crops improve organic matter and provide nutrients. Mechanical cultivation, crop rotations, use of mined soil amendments and cover crops are used to control weeds and pests. Raw manure applications to organic crops for human consumption are regulated to prevent pathogenic contamination.

Farmers promote animal health through sound nutrition based on organic feeds, lush pastures, proper housing, minimal stress, and preventative health care practices. By allowing access to the out-of-doors and freedom of movement, animals are able to express themselves naturally. As a result their immune systems strengthen and, especially with organic dairy cattle, they live longer.

Organic Certification

In order to use the organic label, the USDA organic law requires annual inspection and certification of all operations that sell over $5,000 per year in organic products.

Both private and state run agencies may certify operations as organic. Documentation of inputs, crop and livestock activities, harvests and sales is mandated to verify compliance. To qualify for organic certification, prohibited materials (including prohibited fertilizers, pesticides, and genetically modified crops) must not have been applied to organic crops or the soil in which the crops are grown for a minimum of 36 months prior to an organic harvest. Dairy animals must be under full organic management for 1 year before producing organic milk. Meat animals must be certified organic from last third of gestation. Day old chicks can be purchased from any source and are then managed organically to produce organic poultry products.
Resource Groups

A large number of organizations provide information and other resources to organic farmers in the upper Midwest. This section is organized into four categories: Regional Organizations, National/International Organizations, University Programs, and State and Federal Agencies. Organizations are listed alphabetically within each category.

Regional Organizations

Angelic Organics Learning Center
1547 Rockton Road     Caledonia, IL 61011
815-389-8455     fax 425-969-0317
tom@learngrowconnect.org     www.learngrowconnect.org
A nonprofit that helps urban and rural people build local food systems. We offer opportunities to grow healthy food and a better quality of life, connect with farmers and the land, and learn agricultural and leadership skills.

Family Farm Defenders
PO Box 1772     Madison, WI  53701
608-260-0900     fax 608-260-0900
familyfarmdefenders@yahoo.com     www.familyfarmdefenders.org
Grassroots organization supporting family farmers, rural justice, workers rights, consumer safety and food sovereignty.

FamilyFarmed.org
7115 W North Ave, #504     Oak Park, IL 60302
708-763-9920     fax 708-769-9925
jimslama@sustainusa.org     www.familyfarmed.org
A nonprofit program focusing on supporting the growth of a regional food system in the Midwest by establishing markets for organic and sustainable family farmers in Illinois, Indiana, Iowa, Michigan, Minnesota, Wisconsin, and beyond.

Food Alliance Midwest
400 Selby Ave Suite Y     St Paul, MN  55102
651-265-3682     fax 651-228-1184
bob@foodalliance.org     www.foodalliance.org
One of the nation's leading certifiers of environmentally friendly and socially responsible agricultural practices. FAM is a regional affiliate, certifying farms and administering a market development and public education campaign.

Found’n for Agriculture and Rural Resource Management and Sustainability (FARRMS)
301 5th Ave SE     Medina, ND 58467
701-486-3569
acarlson@farrms.org     www.farrms.org
A nonprofit organization providing organic production and processing courses, loans to transitional farmers and other programming, which supports sustainable rural communities.
Regional Organizations

**GrassWorks, Inc.**
W5101 Correction Lane     Medford, WI 54451
262-685-0152
info@grassworks.org     www.grassworks.org
GrassWorks is a membership organization that provides leadership and education to farmers and consumers for the advancement of managed grass-based agriculture to benefit present and future generations.

**Healthy Farmers Healthy Profits Project**
3814 Winnemac Ave     Madison, WI 53711
608-231-2622     fax 608-262-1228
astridn@wisc.edu     www.bse.edu/hfhp
Provides free literature on work efficiency tools and methods; tools on display.

**Illinois Stewardship Alliance**
401 W Jackson Pkwy     Springfield, IL 62704
217-528-1563     fax 217-528-4274
isa@ilstewards.org     www.ilstewards.org
Through policy development, advocacy and education, promotes ecologically sound, economically viable, and socially responsible food systems.

**Iowa Network for Community Agriculture (INCA)**
PO Box 41476     Des Moines, IA 50311
info@growinca.org     www.growinca.org
A grassroots, volunteer organization promoting local food in Iowa through community-based partnerships, new grower support, and local food education. INCA sponsors a website www.growinca.com, a listserv, and an annual conference.

**Iowa Organic Association**
1190 9th Ave     Marion, IA 52302
319-447-1188     fax 319-447-1188
info@iowaorganic.org     www.iowaorganic.org
Nonprofit organization to advance organic opportunities by fostering education, research, promotion and market development and policy.

**Land Connection**
1123 County Road 2300 E     Sidney, IL 61877
217-688-2570     fax 847-570-0711
cathe@thelandconnection.org
Working to ensure successful farmers, healthy farmland, and an abundance of delicious local and organic food by training beginning farmers and facilitating smart, sustainable, pro-farmer farmland transitions.
Regional Organizations

Land Stewardship Project (LSP)
821 E 35th Street, Suite 200  Minneapolis, MN  55407
612-722-6377  fax 612-722-6474
info@landstewardshipproject.org  www.landstewardshipproject.org
Nonprofit membership organization promoting farmland stewardship and sustainable agriculture. Newsletter, workshops, videos.

Southern MN Office:  180 E Main Street, PO Box 130  Lewiston, MN  55952
507-523-3366  fax 507-523-2729
lspse@landstewardshipproject.org

Western MN Office:  103 West Nichols  Montevideo, MN  56265
320-269-2105  fax 320-269-2190
amyb@landstewardshipproject.org

Leopold Center for Sustainable Agriculture
209 Curtiss Hall - Iowa State University  Ames, IA 50011-1050
515-294-3711  fax 515-294-9696
leocenter@iastate.edu  www.leopold.iastate.edu
Provides funding for research on sustainable agriculture through competitive grants program in Iowa. Offers publications, newsletters, field days and workshops.

FairShare CSA Coalition
303 S Paterson Street  Suite 1B  Madison, WI  53703
608-226-0300
info@macsac.org  www.macsac.org
An organization providing support and outreach for CSA farms in south-central and southwest WI. Publishes and sells a cookbook, which promotes local, seasonal eating and includes over 300 original recipes for 53 vegetables and herbs.

Michael Fields Agricultural Institute (MFAI)
W2493 County Road ES, PO Box 990  East Troy, WI  53120
262-642-3303  fax 262-642-2048
mfaiadmin@michaelfieldsaginst.org  www.michaelfieldsaginst.org
Providing agricultural and food system services. Education, advocacy and practical solutions for the conservation and restoration of the land, whole farm planning, interactive farmer training, and sustainable food systems development.

Michigan Food & Farming Systems (MIFFS)
172 Natural Resources Bldg  East Lansing, MI  48824
517-432-0712  fax 517-353-7961
miffs@anr.msu.edu  www.miffs.org
MIFFS is a statewide, nonprofit organization working to advance sustainable food and farming systems practices that will improve Michigan’s triple-bottom-line, yielding more productive economic development initiatives, and environmental stewardship practices leading to more prosperous communities throughout the state.
Regional Organizations

Michigan Land Use Institute
148 E. Front Street  Suite 301     Traverse City, MI  49684
231-941-6584     fax 231-929-0937
webinfo@mlui.org     www.mlui.org
MLUI is building a new economy in Michigan with efforts to promote local food, green energy, and regional planning. We get things done through a winning combination of investigative journalism, coalition building, and community organizing.

Michigan Organic Food and Farming Alliance (MOFFA)
PO Box 26102     Lansing, MI  48909
248-262-6826
moffaorganic@gmail.com     www.moffa.org
A 300 member nonprofit organization promoting local, organic food and farming in Michigan.

Midwest Organic Dairy Producers Alliance, MODPA
P O Box 1772     Madison, WI  53701
715-265-4831     fax 608-260-0900
bdrinkman@hotmail.com     www.familyfarmdefenders.org
An organic dairy producers group dedicated to improving communication, enhancing farm gate price and consumer confidence while upholding the highest organic dairy standards.

Minnesota Food Association, Big River Farms Program
14220-B Ostlund Trail North     Marine on St Croix, MN  55047
651-433-3676     fax 651-433-5050
glenhill@mnfoodassociation.org     www.mnfoodassociation.org
Nonprofit membership organization promoting a sustainable food system with on-the-ground programs. Operates a certified organic CSA, trains immigrant farmers and distributes food to wholesale markets through Big River Farms. Publishes a monthly e-newsletter.

Minnesota Organic Network
c/o MN Department of Agriculture
625 Robert Street N     St. Paul, MN  55155
651-201-6012     fax 651-201-6012
meg.moynihan@state.mn.us
This e-mail listserv connects Minnesotans who want to share information about organic agriculture, kick around ideas, ask each other questions, and work together. It includes farmers, researchers, and people from Extension, nonprofits, and public agencies who work with organic.

Minnesota Project
1885 University Ave West, Suite 315     St Paul, MN  55104-3462
651-645-6159     fax 651-645-1262
mnproject@mnproject.org     www.mnproject.org
Connecting people with policy to nurture collaborations to build strong local economies, vibrant communities and a healthy environment.
Regional Organizations

Midwest Organic & Sustainable Education Service (MOSES)
PO Box 339     Spring Valley, WI  54767
715-778-5775     fax 715-778-5773
info@mosesorganic.org     www.mosesorganic.org
A nonprofit educational outreach organization dedicated to organic farming. Organizes the
Organic Farming Conference in late February, sells books and signs. Provides educational
trainings, offers resources and answers farmers’ questions. MOSES is the publisher of
this directory.

Northern Plains Sustainable Agriculture Society
PO Box 194, 100 1st Ave SW     LaMoure, ND  58458
701-883-4304     fax 701-883-4204
npsas@drtel.net     www.npsas.org
Committed to the development of a more sustainable society through the promotion of
ecologically sound, socially just, and economically viable food systems.

Organic Field School
5680 290th Street West     Northfield, MN  55057
952-985-7233
allison@organicfieldschool.org     www.organicfieldschool.org
The Organic Field School at Gardens of Eagan is dedicated to transformation of our food
and farming to regional, organic systems. OFS@GOE provides practical education and
research for farmers and teaches the benefits and values of organic farming to the public.

Organic Seed Alliance
PO Box 772     Port Townsend, WA 98368
360-385-7192     fax 360-385-7455
info@seedalliance.org     www.seedalliance.org
Supporting the ethical development and stewardship of the genetic resources of agricultural
seed. Accomplishing goals through collaborative education and research programs with
organic farmers and other seed professionals.

Organic Tree Fruit Association (OTFA)
209 14th Avenue NE     Minneapolis, MN 55413
organictreefruit.org
The Organic Tree Fruit Association is a non-profit organization dedicated to serving the
interests of organic tree fruit growers and advancing the organic tree fruit industry through
education, research and advocacy.

Practical Farmers of Iowa (PFI)
137 Lynn Ave, Suite 200     Ames, IA  50014
515-232-5661     fax 515-232-5649
info@practicalfarmers.org     www.practicalfarmers.org
Sponsors on-farm research, educational programs, field days, conference and a quarterly
newsletter about sustainable and organic agriculture.
Regional Organizations

Research Education Action & Policy on Food Group (REAP)
306 E Wilson Street  Suite 2E     Madison, WI  53703
608-310-7836     fax 608-204-7655
info@reapfoodgroup.org     www.reapfoodgroup.org
Connects producers, consumers, policymakers, educators, businesses and organizations to nourish the links between land and table.

Sustainable Farming Association of MN (SFA-MN)
PO Box 192     Princeton, MN  55371
763-260-0209
john@sfa-mn.org     www.sfa-mn.org
A membership organization supporting the development and enhancement of sustainable farming systems through innovation, demonstration, education, and farmer-to-farmer networking. Events include Grazefest Minnesota, Minnesota Garlic Festival, Harvest Festival, and SFA's Conference each February.

Wisconsin Natural Foods
910 W Grand Ave     Wisconsin Rapids, WI  54494
info@wisconsinnaturalfoods.org     www.wisconsinnaturalfoods.org
Informs people of the relationship between soil conservation, clean air, pure water and human health.

Wisconsin Farmers Union
117 W Spring Street     Chippewa Falls, WI  54729
715-723-5561     fax 715-723-7011
info@wisconsinfarmersunion.com     wisconsinfarmersunion.com
Wisconsin Farmers Union has been the voice of Wisconsin farm families since 1930. We pride ourselves on the values of education, legislation, and cooperation. Join today!

Women, Food and Agriculture Network
PO Box 611     Ames, IA  50010
515-460-2477     fax 512-628-3841
info@wfan.org     www.wfan.org
Linking and empowering women to build food systems and communities that are healthy, just, sustainable, and that promote environmental integrity.
National/International Organizations

Accredited Certifiers Association, Inc.
PO Box 472     Port Crane NY 13833
607-648-3259
PatriciaKane@accreditedcertifiers.org     www.accreditedcertifiers.org
A non-profit educational organization offering resources to the USDA accredited organic
certifier community and the organic industry.

American Pastured Poultry Producers Association (APPPA)
PO Box 87     Boyd, WI 54726
888-662-7772
grit@apppa.org     www.apppa.org
A member organization dedicated to sharing information about raising all kinds of poultry on
pasture. Newsletter, website, electronic listserv.

Animal Welfare Approved
1007 Queen Street     Alexandria, VA 22314
202-546-5292     fax 202-446-2151
info@animalwelfareapproved.org     www.animalwelfareapproved.org
Audits and certifies family farms. Our farmers raise their animals with the highest welfare
standards, on pasture or range. When you can't visit the farm, Animal Welfare Approved is
the eyes and ears of the conscientious consumer.

ATTRA - National Sustainable Agriculture Information Service
PO Box 3657     Fayetteville, AR 72702
800-346-9140 main office     fax 479-442-9842
jeffb@ncat.org     www.attra.ncat.org
Provides free publications on organic and sustainable production methods, crops, marketing, and
farm internships. Extensive website and databases. Specialists prepare tailored responses to
questions. Managed by the nonprofit National Center for Appropriate Technology (NCAT).

Beyond Pesticides
701 E Street, SE     Washington, DC 20003
202-543-5450     fax 202-543-4791
info@beyondpesticides.org     www.beyondpesticides.org
Assists individuals and community-based organizations to stimulate discussion on the
hazards of toxic pesticides, while providing information on safer alternatives. Produces
quarterly magazine, bulletins, and reports.

Center for Food Safety
660 Pennsylvania Ave SE, Suite 302     Washington, DC 20003
202-547-9359     fax 202-547-9429
office@centerforfoodsafety.org     www.centerforfoodsafety.org
A national nonprofit working to curb the proliferation of harmful food production technologies
and promote sustainable alternatives.
National/International Organizations

Certified Naturally Grown
PO Box 156     Stone Ridge, NY 12484
877-211-0308
info@naturallygrown.org     www.naturallygrown.org
A national certification program for direct-market farmers using natural methods. Certification involves an online application, adherence to high standards, and annual on-farm peer-review inspections. CNG is a grassroots nonprofit, not affiliated with any government agency.

Cornucopia Institute
PO Box 126     Cornucopia, WI 54827
608-625-2042     fax 866-861-2214
cultivate@cornucopia.org     www.cornucopia.org
Dedicated to the fight for economic justice for the family-scale farming community. Through research, advocacy, and economic development our goal is to empower farmers both politically and through marketplace initiatives. Upper Midwest based and national in scope.

eOrganic Community of Practice
4017 Ag Life Sciences Bldg     Corvallis, OR 97331-7304
541-737-3483     fax 541-737-3479
joinorganic@gmail.com     http://www.extension.org/organic_production
A national web-based information source designed to provide accurate and up-to-date information on organic agriculture to university faculty, extension agents, and farmers.

Farmer’s Legal Action Group, Inc. (FLAG)
360 Robert Street N, Suite 500     St Paul, MN 55101
651-223-5400
lawyers@flaginc.org     www.flaginc.org
FLAG is a nonprofit law center dedicated to providing legal information, referrals, and advocacy to family farmers and farm organizations. FLAG has written materials on disaster assistance, GMO’s, wind energy, contracts, farmers markets, and appeals.

Institute for Agriculture and Trade Policy (IATP)
2105 1st Ave S     Minneapolis, MN  55404
612-870-0453     fax 612-870-4846
info@iatp.org     www.iatp.org
IATP works locally and globally at the intersection of policy and practice to ensure fair and sustainable food, farm and trade systems.
National/International Organizations

International Federation of Organic Ag Movements (IFOAM)
Charles-de-Gaulle Str. 5     53113 Bonn, Germany
49-228-92650-10     fax 49-228-92650-99
headoffice@ifoam.org     www.ifoam.org
IFOAM represents the worldwide movement of organic agriculture and provides a platform for global exchange and cooperation. The Federation's main function is coordinating the network of the organic movements around the world. Major activities carried out by IFOAM's World Board of Directors, various committees and task forces.

International Organic Accreditation Service (IOAS)
235 Sims Street Suite 22B     Dickenson, ND  56401
701-483-5504     fax 701-483-5508
info@ioas.org     www.ioas.org
IOAS: Cultivating integrity and trust across the organic community. IOAS is an independent, nonprofit international organization that works on behalf of everybody involved in organic agriculture to ensure trust in products labeled as organic. It does so through several accreditation and evaluation programs enabling access to international markets.

International Organic Inspectors Association
PO BOX 6     Broadus, MT  59317-0006
406-436-2031     fax 406-436-2031
ioia@ioia.net     www.ioia.net
Trains certification inspectors for the organic industry. Training program includes curriculum, accreditation and publications.

LocalHarvest
PO Box 1292     Santa Cruz, CA  95061
831-515-5602     fax 831-401-2418
webmaster@localharvest.org     www.localharvest.org
A nationwide directory of small farms, farmers markets, and other local food sources, helping consumers get fresh farm produce right near where they live.

National Association of State Organic Programs
PO Box 42560     Olympia, WA  98507
360-902-1924
bbook@agr.wa.gov
Provides State/Commonwealth government officials a means to discuss the promotion and regulation of organic agricultural issues. Facilitates communication among members' agencies and represents common interests to other national organizations and federal agencies.

National Organic Coalition (NOC)
3540 Route 52     Pine Bush, NY 12566
845-744-2304
liana@hvc.rr.com     www.NationalOrganicCoalition.org
The National Organic Coalition (NOC) is a national alliance of organizations working to provide a “Washington voice” for farmers, ranchers, industry, environmentalists, consumers and organic industry members who are committed to organic integrity.
**National/Sustainable Agriculture Coalition (NSAC)**

110 Maryland Ave NE #209     Washington, DC  20002
202-547-5754     fax 202-547-1837
info@sustainableagriculture.net     www.sustainableagriculturecoalition.org

*A national alliance of grassroots family farm, rural, and conservation organizations that together advocate for federal policies and programs supporting the long-term economic and environmental sustainability of agriculture, natural resources, and rural communities.*

**Organic Center**

444 N. Capitol Street NW, Suite 445A     Washington, DC 20001
802-275-3897     fax 303-957-2373
info@organic-center.org

*Offering credible, peer reviewed scientific information and communicating the verifiable benefits of organic farming and products to society.*

**Organic Consumers Association**

6771 S Silver Hill Drive     Finland, MN  55603
218-226-4164

www.organic-center.org

*An online and grassroots nonprofit public interest organization campaigning for health, justice, and sustainability.*

**Organic Farming Research Foundation (OFRF)**

PO Box 440     Santa Cruz, CA  95061
831-426-6606     fax 831-426-6670
jane@ofrf.org     www.ofrf.org

*A nonprofit foundation that sponsors research related to organic farming practices, publishes research results for organic farmers and growers interested in adopting organic production systems, and educates the public and decision-makers about organic farming issues.*

**Organic Materials Review Institute (OMRI)**

PO Box 11558     Eugene, OR  97440
541-343-7800 x106     fax 541-343-8971
info@omri.org     www.omri.org

*OMRI reviews brand name products used in organic agriculture and processing, and determines if they meet USDA organic regulations. Products that are “OMRI LISTED” have had detailed information submitted for review and pay a fee for this service. Not all NOP allowed items are OMRI listed, but many are present. Certification agencies can accept all OMRI listed products or may wish to review the products on their own. Always check with your agency before using a new product. Check the OMRI website for their listed products.*
National/International Organizations

Organic Trade Association (OTA)
PO Box 547, 60 Wells Street Greenfield, MA 01302
413-774-7511 fax 413-774-6432
dgagnon@ota.com www.ota.com

Rodale Institute
611 Siegfriedale Road Kutztown, PA 19530-9320
610-683-1400 fax 610-683-8548
info@rodaleinst.org www.rodaleinstitute.org
Leaders in organic solutions since 1974. Providing farmers with techniques they need to succeed; policy-makers with information they need to best support our farmers; and consumers with resources they need to make informed decisions about the food they eat.

Sustainable Agriculture Research & Education Program (SARE Outreach)
1122 Patapsco Building College Park, MD 20742-6715
614-306-6422 fax 301-705-7711
outreach@sare.org www.sare.org
The national outreach arm of the Sustainable Agriculture Research and Education Program (SARE). SARE Outreach publishes a variety of farmer-ready handbooks, free bulletins, reports highlighting SARE projects, and resource guides.

Sustainable Alternative Farming Institute/Small Farm Today
3903 W Ridge Trail Road Clark, MO 65243
800-633-2535 fax 573-687-3148
smallfarm@socket.net www.esafi.com
A nonprofit organization dedicated to the preservation of the small family farm, rural community and the sustainability of our society at large. Produces a newsletter.

Wallace Center/Winrock International
2121 Crystal Drive, Suite 500 Arlington, VA 22202
703-879-6556 fax 703-525-1744
wallacecenter@winrock.org www.wallacecenter.org
Supports entrepreneurs and communities as they build a new, 21st century food system that is healthier for people, environment, and economy. We foster linkages, knowledge & resources through the National Good Food Network and by informing public policy.
University Programs

Agro-Ecology & Sustainable Ag Program (ASAP)
University of Illinois Urbana-Champaign
W503 Turner Hall, MC-047  1102 S Goodwin Ave  Urbana, IL 61801
217-333-9471     fax 217-244-3219
mwander@illinois.edu     www.asap.sustainability.uiuc.edu
Facilitates and promotes research and education which protects Illinois natural and human resources and sustains agricultural production.

Black Hawk College
26230 Black Hawk Road     Galva, IL 61434
309-854-1722     fax 309-856-5601
Hawesj@bhc.edu     http://blackhawkorganics.blogspot.com/
Exploring the use of sound agricultural practices to produce and market alternative agricultural crops. Offers courses and operates a four acre production program that follows USDA organic certification guidelines through certifying agent, Midwest Organic Services Association (MOSA).

Center for Agroecology and Sustainable Food Systems
University of California Santa Cruz
1156 High Street     Santa Cruz, CA 95064
831-459-3240     fax 831-459-2799
apprenticeship@ucsc.edu     http://casfs.ucsc.edu
A six-month, full time education program held at the 25-acre Farm and 3-acre Alan Chadwick Garden on the UC Santa Cruz campus. Course includes classroom instruction, in-field training, and hands-on experience in the gardens, greenhouses, orchards, fields, and marketing outlets.

Center for Integrated Ag Systems (CIAS)
1535 Observatory Drive     Madison, WI 53706
608-262-8018     fax 608-265-3020
cecarusi@wisc.edu     www.cias.wisc.edu
A sustainable agriculture research center at UW-Madison that brings together farmers, researchers, and policy makers to study farming practices and profitability.

Indian Hills Community College
Sustainable Agriculture/Entrepreneurship
721 N First Street     Centerville, IA 52544
641-856-2143     fax 641-856-3158
bkaster@indianhills.edu  www.indianhills.edu
This program is designed to provide area landowners, farmers, and young adults with access to land the entrepreneurial skills necessary to start a new or further develop an existing land-based business, and/or gain employment in an agriculturally related field.
University Programs

Iowa State University - Department of Agronomy
1126J Agronomy Hall     Ames, IA 50011-1010
515-294-3846     fax 515-294-8146
miller@iastate.edu     www.ImAnAgronomist.net
Agronomy at ISU is dedicated to maintaining a systems approach to agriculture. Our undergraduate program in Agronomy includes an Agroecology option that has been of high interest to students who want to study organic and sustainable agriculture.

Iowa State University Graduate Program in Sustainable Agriculture (GPSA)
253 Bessey Hall     Ames, IA 50011
515-294-6518     fax 515-294-1337
gpsa@iastate.edu     www.sust.ag.iastate.edu/gpsa/
The first program to offer the MS and PhD in sustainable agriculture, the GPSA emphasizes experiential learning through an interdisciplinary curriculum. Students acquire depth of knowledge as well as systems-level thinking while pursuing advanced research that transcends traditional disciplinary boundaries.

Iowa State University, Organic Ag Program
106 Horticulture Hall     Ames, IA 50011
515-294-7069     fax 515-294-0730
kdelate@iastate.edu     extension.agron.iastate.edu/organicag/
Dr. Delate's position in ISU Extension is devoted to organic agriculture. ISU Extension also offers fact sheets and other materials on sustainable agriculture.

Lake Land College
5001 Lake Land Blvd     Mattoon, IL 61938
217-234-5569     fax 217-234-5200
dbarkley@lakeland.cc.il.us     www.lakeland.cc.il.us
This program is designed for students planning a career in alternative agriculture production. Emphasis on the fundamentals of agroecology, incorporation of biological pest management, and sustainable crop and livestock production along with the concepts of direct marketing.

Maharishi University of Management
Sustainable Living Department
Dr Keith Wallace Drive     Fairfield, IA 52557
641-472-7000 x 1109     fax 641-472-1235
www.mum.edu/sustainable_livingsustainability@mum.edu
A rapidly expanding sustainable living undergraduate program gives students understanding and skills to develop sustainable systems and communities to create a more sustainable world. Courses cover policy, renewable energy, ecology, organic and community supported agriculture, and green design and building, etc.
University Programs

**Marshalltown Community College - Entrepreneurial & Diversified Agriculture Program**
3700 S. Center Street  Marshalltown, IA  50158
641-844-5788
linda.barnes@iavalley.edu  www.iavalley.edu
This program offers one year certificates and two year degrees. Included on campus is a 140 acre farm used for demonstration to students and new farmers who wish to begin farming on site.

**Michigan State University**
303 Natural Resources CAARS  East Lansing, MI  48824
517-353-3543  fax 517-353-3834
sorrone@msu.edu  www.michiganorganic.msu.edu
The C.S. Mott Group at MSU engages communities in applied research and outreach that promote sustainable food systems to improve access to and availability of healthy, locally-produced food. There is a focus on organic farming approaches for vegetables and field crops.

**Michigan State University**
W.K. Kellogg Biological Station
3700 E Gull Lake Drive  Hickory Corners, MI  49060
269-671-2341  fax 269-671-2351
Director@kbs.msu.edu  www.kbs.msu.edu
Year-round biological field station conducting research on the ecology of managed and unmanaged systems that supports educational and extension/outreach programs, including sustainable agricultural practices for row-crop production (conventional and organic), cover crops, grazed pastures, and biofuels.

**Minnesota Institute for Sustainable Agriculture (MISA)**
1991 Upper Buford Circle  St Paul, MN  55108
612-625-8235  fax 612-625-1268
misamail@umn.edu  www.misa.umn.edu
Bringing together the diverse interests of the agricultural community and the University to promote sustainable agriculture.

**NDSU - Carrington Research Extension Center**
PO Box 219  Carrington, ND  58421
701-652-2951  fax 701-652-2055
vern.anderson@ndsu.edu  www.ag.ndsu.nodak.edu
Researches crop and animal ecosystems to help family farms maintain profitability. Specializing in ruminants and all crop production.

**NDSU - Dickinson Research Extension Center**
1041 State Avenue  Dickinson, ND  58601
701-483-2348 ext. 113  fax 701-483-2073
frank.kutka@ndsu.edu
SARE state coordinator for both North and South Dakotas.
University Programs

University of Illinois - Urbana, Crop Sciences
1201 W Gregory Drive Urbana, IL 61801
217-621-7974 fax 217-333-4582
aslan@illinois.edu http://asap.sustainability.uiuc.edu/org-ag
Developing research and outreach programs on cover cropping, weed management in organic farming systems. Coordinating on-farm research, organic farm tours.

University of Minnesota, Applied Plant Sciences Graduate Program
1991 Upper Buford Circle St. Paul, MN 55108-6026
612-625-4742 fax 612-625-1268
apsc@umn.edu www.appliedplantsciences.umn.edu/
Biological solutions to real-world problems come to life in the Applied Plant Sciences graduate program. We offer Undergraduate, Minor, M.S. and Ph.D. degrees in one or more of the following specializations: Sustainable Agriculture; Agronomy/Agroecology; Horticultural Science; Plant Breeding/Molecular Genetics; Applied Plant Sciences.

University of Minnesota SW Research & Outreach Center, Elwell Agroecology Farm (SWROC)
23669 130th Street Lamberton, MN 56152-1362
507-752-7372 fax 507-752-5097
riddl003@umn.edu organicecology.umn.edu
The U of MN’s Organic Ecology Program explores the science of organic agriculture through on-farm and experiment station research; variety trials; organic field days; workshops; publications; and the Organic Ecology website.

University of Wisconsin-Madison, Agroecology Program
1525 Observatory Drive Madison, WI 53706
608-890-1456
caelholm@wisc.edu www.agroecology.wisc.edu
We seek to foster the development of the facilitators, researchers, and practitioners of a more equitable and resource-efficient agriculture. Our curriculum addresses agriculture as the simultaneously biophysical and social enterprise that it is.

University of Wisconsin-River Falls, Plant & Earth Science
410 S 3rd Street River Falls, WI 54022
715-425-3941 fax 715-425-3785
william.anderson@uwrf.edu www.uwrf.edu
UWRF’s Sustainable Agriculture option within the Crop and Soil Science major promotes land productivity, environmental stewardship, economic practicality and rural community viability. Two relevant minors are now available to students as well: Sustainable Agriculture and Sustainable Studies.
State and Federal Agencies

Alternative Farming Systems Information Center
National Agricultural Library (AFSIC)
10301 Baltimore Ave, Room 132  Beltsville, MD 20705-2351
301-504-6559  fax 301-504-6927
afsic@ars.usda.gov  http://afsic.nal.usda.gov

A library information center specializing in resources related to organic and sustainable agricultural enterprises, crops, and cropping systems.

Illinois Department of Agriculture
PO Box 19281, State Fairgrounds  Springfield, IL 62794-9281

tony.bowers@wi.usda.gov www.fsa.usda.gov
This agency makes and guarantees loans and provides credit counseling to farmers and ranchers. For more information contact your local FSA office.

USDA National Organic Program (NOP)
1400 Independence Ave SW, Room 4004 South Washington, DC 20250
202-720-3252 fax 202-205-7808
jonathan.melvin@ams.usda.gov www.ams.usda.gov/nop
This government agency oversees national organic standards, accredits organic certification agencies, and provides general information on its policies and activities through its website.
State and Federal Agencies

**USDA Natural Resources Conservation Service (NRCS)**

8030 Excelsior Drive Suite 200 Madison, WI 53717-2906
608-662-4422 ext 227 fax 608-662-4422
renae.anderson@wi.usda.gov www.wi.nrcs.usda.gov

The primary federal agency working to protect natural resources on private lands. NRCS offers technical and financial assistance to farmers for conservation planning and practices suited to their land and operation.

Wisconsin Office: 8030 Excelsior Drive Madison, WI 53717
608-662-4422
www.wi.nrcs.usda.gov

Minnesota Office: 375 Jackson Street Suite 600 St. Paul, MN 55101
651-602-7900
www.mn.nrcs.usda.gov

Iowa Office: 693 Federal Building
210 Walnut Street Des Moines, IA 50309
515-284-4260 www.ia.nrcs.usda.gov

**Resource Conservation & Development (RC&D)**

The purpose of the RC&D program is to accelerate the conservation, development and utilization of natural resources, improve the general level of economic activity, and to enhance the environment and standard of living in designated RC&D areas. Current program objectives focus on improvement of quality of life achieved through natural resources conservation and community development which leads to sustainable communities, prudent use (development), and the management and conservation of natural resources. To find out more about specific program initiatives, contact your area RC&D program office. RC&D program offices are listed online at www.nrcs.usda.gov/programs/rcd

**USDA Risk Management Agency (RMA)**

30 East 7th Street, Suite 1450 St Paul, MN 55101
651-290-3304 x229 fax 651-290-4139
george.montgomery@rma.usda.gov www.rma.usda.gov

Provides resources for farmers for protecting their operations from risk, through Federal Crop Insurance and information on other risk management strategies.

**Wisconsin Department of Agriculture, Trade & Consumer Protection (WI DATCP)**

PO Box 8911 Madison, WI 53708
608-224-5120 fax 608-224-5110
laura.paine@wi.gov www.datcp.state.wi.us

Resources and information for beginning and experienced organic farmers and handlers. Administers organic cost-share funds when available. Coordinates the Wisconsin Organic Advisory Council, a public-private partnership to support development and growth of the organic sector in Wisconsin.
Certification Agencies

Certification Agencies

As of October 21, 2002 the U.S. organic law went into effect and is implemented by the USDA National Organic Program (NOP). Private agencies and some state programs are accredited by the USDA’s NOP to provide independent, third-party certification verifying organic food is produced according to US organic standards.

Other countries, such as Canada, Japan or the European Union, have their own standards for organic products. For export purposes, some U.S. agencies are approved to certify to various international standards. Contact each agency for information on their programs to access to foreign organic markets.

The USDA NOP does not directly certify farms or processors; they accredit agencies to certify operations as organic. Only agencies (both domestic and foreign) accredited by the USDA can perform organic certification for US markets.

Below are a number of certification agencies that operate in the upper Midwest.

Demeter Association, Inc.
PO Box 1390    Philomath, OR 97370
541-929-7148    fax 541-929-4387
jim@demeter-usa.org    www.demeter-usa.org

Demeter® USA provides whole farm Biodynamic® certification, viewing the farm as a living organism. In addition to organic certification requirements, Demeter requires 10% biodiversity set-aside, on-farm fertility and pest control, and rigorous processing standards that emphasize minimal product manipulation.

Global Organic Alliance
PO Box 530    Bellefontaine, OH 43311
937-593-1232    fax 937-593-9507
globalorganicalliance@hughes.net    www.goa-online.org

GOA maintains ISO 65 and USDA accreditation and verifies compliance to EU 848/2007 regulation. Also authorized to issue TM-11 Export Certificates to Japan and now holds JAS accreditation.

Indiana Certified Organic, LLC.
8364 S State Road 39    Clayton, IN 46118
317-539-4317    fax 317-539-2739
icollceo@earthlink.net    www.indianacertifiedorganic.com

ICO is NOP, ISO 65 and EC 834/2007 accredited and certifies across the US and in the US Virgin Islands.

International Certification Services (ICS)
301 5th Ave SE    Medina, ND 58467
701-486-3578    fax 701-486-3580
info@ics-intl.com    www.ics-intl.com

Offering certification under the National Organic Program and Farm Verified Organic (FVO) program for crops, livestock, processing, handling, wild harvest, apiculture, and more. Accreditations and approvals include: NOP, IFOAM, COR, ISO 65, EEC 834/2007, Bio Suisse Facilitation, and JAS facilitation.
Certification Agencies

Midwest Organic Services Association (MOSA)
PO Box 821, 122 W Jefferson Street    Viroqua, WI 54665
608-637-2526     fax 608-637-7032
mosa@mosaorganic.org   www.mosaorganic.org
NOP and ISO Guide 65 accredited certification agency providing services to producers and processor/handlers throughout the United States, with a strong focus on the Upper Midwest. Certification available for crops, wild crops, livestock and handling operations.

Minnesota Crop Improvement Association (MCIA)
1900 Hendon Ave    St. Paul, MN  55108
612-625-7766     fax 612-625-3748
mncia@tumn.edu   www.mncia.org
Accredited organic certifier for crops and handling in the Upper Midwest. ISO Guide 65 compliant. Over 100 years of service to the agriculture industry.

Nature's International Certification Services (NICS)
PO Box 131, 224 State Hwy 56    Viroqua, WI 54665
608-637-7080     fax 608-637-7460
david.engel@naturesinternational.com   www.naturesinternational.com
A new organic certification agency founded by David Engel in June of 2005 to serve organic producers including crops, wild crops and livestock operations, and processors/handlers worldwide.

OCIA International, Inc.
1340 N Cotner Blvd    Lincoln, NE 68505
402-477-2323     fax 402-477-4325
info@ocia.org    www.ocia.org
OCIA is an International organic certification agency which has local chapters throughout the world. Certifies organic producers, processors, brokers, warehouses, and Community Grower Groups. Visit our website, www.ocia.org to find the chapter located in your state.
Certification Agencies

fog@foginfo.org     www.qcsinfo.org     www.foginfo.org
Certification agency and nonprofit promoting organic and sustainable agriculture. Providing certification services worldwide. USDA and ISO 65 accredited.
Suppliers of Organic Products

Appropriate fertilizers, seeds, pest control products and equipment for organic production can be difficult to source. These companies provide inputs that are acceptable for organic production under the USDA NOP Rule. The final responsibility for determining the suitability of products lies with the producer. Check with your certifier if you have any questions on the acceptability of any product. MOSES does not endorse the individuals and organizations listed here. It is recommended you work closely with your certifying agency to determine what products are allowed for your production system. Some companies offer products in different categories, but due to space restrictions are listed only once. Please read through all supplier listings. Also, check the "Brokers, Buyers, Cooperatives and Processors" and "Consultants" sections, as many of these businesses also offer products for organic systems. (Note: The word "organic" is now reserved for products that have been certified as organically produced. Unless certified, use of the word "organic" is no longer appropriate on inputs, even though the products are APPROVED for use in a certified organic system. Consult your certifying agency for any questions on this issue.)

This section is divided into six categories:
- Fertilizers and Soil Inputs
- Equipment Suppliers
- Pest Control Suppliers
- Seed Suppliers
- Feed Suppliers
- Veterinary Suppliers

Fertilizers and Soil Inputs

Advancing Eco-Agriculture
15266 Hayes Road     Middlefield, OH 44062
440-632-1012     fax 440-632-1256
info@advancingecoag.com

Our mission is to enable farmers to produce high quality, healthy plants with inherent resistance to disease and insect attack by providing them with knowledge to understand the natural soil-plant system, tools to monitor the system’s performance, and natural materials to enhance crop function and performance.

Solar-Powered Night Predator Light - maintenance-free unit automatically turns on at dusk, off at dawn. Red flashing LED light keeps nighttime predators away from your poultry, livestock, fields, gardens and property. Based on scientific research that a flash of light implies to all animals that hunt or feed at night that they have been ‘discovered’ or are being watched. This deep fear forces them to flee the area. Protects against owls, coyotes, raccoon, deer, fox, bobcats, bears, cougar, wild boar, mink, weasels and more. Environmentally safe. 60-day money back guarantee, 1 year limited warranty. www.niteguard.com 800-328-6647.

608-489-3201
Custom grower of organic replacement pullets. Also produces grass-fed cattle, pastured turkeys, chickens and asparagus. Certified organic.
Brokers, Buyers, Cooperatives and Processors

The listed companies buy organic goods in order to process and/or resell the goods. Brokers, buyers, cooperatives and processors are listed alphabetically below. Farmer cooperatives market their members’ agricultural products, acting for the benefit of their members. Some co-ops also process their members’ goods into value-added products. MOSES makes no claims regarding the business practices of listed buyers. Note: Also check the "Suppliers" and "Consultants" listings, as many of these businesses also broker or process organic products.

The Midwest Organic and Sustainable Education Service (MOSES) is a non-profit educational outreach organization. MOSES organizes the Organic Farming Conference, held annually in La Crosse, WI, and publishes the bi-monthly Organic Broadcaster newspaper, a Guidebook to Organic Certification, Organic Fact Sheets and Help Wanted: Organic Farmers information packets. MOSES also sells books, provides educational trainings and answers farmers' questions.

For recent updates of Directory listings and more organic farming information please visit: www.mosesorganic.org
